METHODOLOGY

Results are based on data from 38 participating firms in the IBD Elite. Financial Planning relied on the firms to ensure the accuracy of the information. FP works to verify data when possible. "NA" means not applicable or not available. The 2023 data does not always match last year's survey because some companies restated data; as a result, some of the rankings from the prior year are different. The data for some firms that merged may have also changed from last year's survey. All figures reflect calendar year numbers. Total revenues drive the overall IBD Elite rankings.
